THEY ARE TRAINING  
FOR THE BIG FIGHT

Johnson and Ketchel Display Endurance and Cleverness Before Admirers.

(By Wm. J. Slattery.)

San Francisco, Oct. 6.—Jack Johnson and Stanley Ketchel did more training work yesterday than any other boxers who have been in the limelight around here for a long time. It was nip and tuck and hammer away with both of them from early morning until late in the evening. A lot of this was no doubt for effect, because the crowds watched them go through their stunts. But leaving the show off part of it aside, the men demonstrated that they were in earnest with their training. The condition of each man seemed to be about right, and it looks as though both are fit to do the nitty and settle their differences in the ring at a few hours' notice.

Ketchel did more work yesterday than the ordinary boxer does in the course of a fight. Outside of his road exercise and his gymnasium performance the middle weight champion boxed no less than 21 rounds with three different sparring partners, and had there been any more on the job the chances are that the Michigan lion would have taken them on also.

Ketchel started with his usual 10 mile run along the muddy highway of San Mateo county. After lunch there was a large crowd lined up to see him box. Manager Willis Britt did not at first intend to pull off a boxing show, for the reason that Ketchel was billed to appear at the Chutes in two performances, but rather than disappoint the fans he ordered his champion out.

Ketchel waded in and tore after big Steve O'Connor, Kila Lafayette and Young Sharkey, a new comer. This trio was up for three rounds of lacing each, and when it was all over the sparring mates of the champ were ready to extend a vote of thanks. Though rough and fast Ketchel was not so cruel as in the past and none of the tryout ones were badly punished.

In response to Johnson's call for volunteer sparring partners, Tom O'Neil and Joe Lanum, from the ranks of the amateurs, reported on the job. When the news that Johnson was to box three of them was spread along the beach the crowds swarmed into the big pavilion and standing room, even, was at a premium by the time the first bout was put on.

**Big Black's Clash.**  
Johnson went three rounds each with O'Neil and Lanum and four with Dave Mills, making ten all told. He and his work was very interesting. None seemed able to lay a glove on the big smoke, who was able to do most anything as pleased with the two recruits as well as with Mills, with whom he works every afternoon.

**Little Replies to Britt.**  
In reply to Britt's pointed remarks about Johnson the other day, George Little, Johnson's manager, has come back with the following bit of hot shot:

"In reply to Britt's statement I will say that I am a messenger boy for Jack Johnson and I might not be drawing a messenger boy's salary, but I will have the satisfaction of jingling part of that paltry \$5,000 side bet. Of course, Johnson and I did not let Britt dictate for one reason.

"When a boy my grandfather used to take me on his knee and talk like this:

"George, when you grow up to be a man, never buy a hair restorer from a bald headed barber and never take a broken man's advice."

"As for Johnson being in Africa throwing coconuts for the championship of the world, when he gets in the ring on October 12 he will land a few on Ketchel's coconut that were never there before."

"In regard to Britt's losing his self-respect in a conversation with me, people living in glass houses, etc."

## CAPTAIN IS CAUTIOUS.

Montreal, Oct. 5.—Captain Bernier has a letter he received from Dr. Cook, dated Uppernavik, May 23, in which the latter says Peary sold his supplies, but that with the aid of the provisions brought by Bernier he was able to "work out his problem."

The letter says: "We have pushed into the barest center and have picked

up the Polar prize, but the effort was dangerous beyond all conception."

A special from Quebec to the Herald says Capt. Bernier was asked if he thought either Cook or Peary had reached the pole. The captain answered: "I would not care to give an answer to the pole before I have had sufficient proof. Both are very persistent."

The captain did not want to say more because, he said, he expected to be a witness in the Cook-Peary controversy.

## SALT LAKE AND STATE NEWS

## DUCK HUNTER MISSING NEAR AMERICAN FORK

Provo, Oct. 5.—This community is considerably worked up over the sudden disappearance of William Summerville of American Fork, who has not been seen since he left his home to go duck hunting last Saturday night.

William Summerville, aged about 22 years, and Leverage Adamson, aged about 19 years, left their homes Saturday night to go duck hunting. Adamson returned Sunday night wet and cold, but Summerville has not been heard of since. Adamson states that he last saw Summerville at 9 a. m. Sunday and that the latter suggested that he walk around the point of the mountain near where the captain answered to the pole before I have had sufficient proof. Both are very persistent."

Adamson claims that he searched the area around the mountain, but that he was unable to find any trace of him. He returned to the city at night but went out on another search in the morning. This was of no avail, however.

Deputy Sheriff Parley P. Pratt and about one hundred men left American Fork and Lehi this morning to search for Summerville, and if some trace of him is not found before night the Jordan river and its mouth will be dragged to the smallest stream that he might have dropped in it.

Summerville resides at American Fork and has a wife and child. He and Adamson have been lifelong chums and there is no disposition to believe that there has been any foul play in connection with his sudden disappearance.

## FALLING MAN IS RESCUED IN MIDAIR

Salt Lake, Oct. 5.—While Frank Henderson was working on the roof of a new house at Seventh East and Tenth South streets yesterday, he slipped on the steep slope and slid earthward, shouting for help as he neared the edge.

George Hansen, who was at work in the second floor, hearing the shouts, ran to a window in time to see Henderson's body dropping from the roof. Seizing a support with one hand, Hansen leaned out of the window and threw his arm about Henderson as he was falling.

The strain was terrible, but Hansen finally pulled Henderson through the window and to safety. Hansen has a badly wrenched shoulder and arm.

## CITY MAY BE LOSER.

Salt Lake, Oct. 5.—Through the careless drawing of franchises for the Salt Lake Public Service company, now in the hands of a receiver, the city will not be able to realize upon the \$25,000 forfeit which it believed it held against the company. This, in substance, was the report of City Attorney H. J. Dineen to the city council last night, and the report was sent to the municipal laws committee to digest.

The old Citizens' Heating & Power company executed a bond in favor of the city for \$25,000 to insure prosecution of the work proposed. But when this company was absorbed by the Salt Lake Public Service company the franchise matters were overlooked and nothing tangible was held against the newer company.

will be no doubt as to who is the first discoverer of the North Pole."

He said the report of the Copenhagen university would be sent out first and that he expected an end to the present controversy within six months.

Washington, Oct. 5.—Additional interest is lent to a report on conditions in Liberia, made by Consul Solomon Berliner, of Tenerife, Canary Islands, by reason of the recent visit

paid the African republic by the commission from the United States.

In the opinion of Consul Berliner, many difficulties stand in the way of commercial development in Liberia. Some of these he cites, among them: Restrictions placed upon foreigners; no real estate can be owned by foreigners; bad condition of the disturbed state of the interior; backward state of the inhabitants; limited ports of entry and smuggling on the coast.

## MONTANA LAND BOARD WILL DEFER ITS ACTION

Helena, Mont., Oct. 5.—The state land board has decided to hold in abeyance the matter of forcible ejectment of forestry officials of the Flathead country lands until the courts rule on their right to do so.

This decision follows a ruling by Secretary Ballinger received by the board today in which he holds that the title to section 16 and 36 in each township still vests in the federal government. The state claimed it under the enabling act.

## COOK AFFECTED BY HIS WELCOME

Pittsburg, Pa., Oct. 5.—Visibly affected by the enthusiastic ovation accorded him, Dr. Cook, the North Pole explorer, arrived here today. From the time he left the train until he reached the Hotel Schenley, Dr. Cook was given a most hearty reception. Following his arrival at the hotel, he went into seclusion, announcing that for the present he intended to make no statements concerning the polar controversy.

Dr. Cook is suffering from a heavy cold and it is doubtful whether he will be able to carry out his many engagements. When the newspapermen became insistent, the explorer granted them a brief talk.

"In a short time," he said, "the public is to be given facts and then there

will be no doubt as to who is the first discoverer of the North Pole."

He said the report of the Copenhagen university would be sent out first and that he expected an end to the present controversy within six months.
